November 2025

Roundtable Webinar

- **Tricia Strusowski, MHA**, CEO of Turnkey Oncology
- **Kimberly Bolin Samuels, BS, ARDMS, ARRT, RT(R)(M)**, Executive Director, National Consortium of Breast Centers
- **Krista Nelson, LCSW, OSW-C, FAOSW, FAPOS, FACCC**, Manager, Oncology Social Work, Providence Health & Services
- **Morgan Nestingen, PhD, RN, AGCNS-BC, NEA-BC, OCN, ONN-CG**, Executive Director, Navigation Program, MD Anderson Cancer Center

WEBINAR

**Advancing Navigation Sustainability: Reimbursement Billing Codes and Beyond
Webinar: Wednesday, December 17, 2025 | 2:00 PM ET**

Join the American Cancer Society National Navigation Roundtable (ACS NNRT)

for an in-depth conversation on how reimbursement for Principal Illness Navigation (PIN) services can strengthen both the sustainability and quality of navigation programs.

This session will look beyond the revenue to explore what truly drives successful implementation, from decision-making and policy development to staffing models and technology integration. Panelists will share real-world lessons learned and practical strategies for applying reimbursement to enhance professional standards, support financial sustainability, and improve patient outcomes.

Roundtable Spotlight

Lung Cancer Navigation and Care: A Comprehensive Guide for Navigators and Allied Health Professionals

ACS NNRT is excited to share a new publication *"Lung Cancer Navigation and Care: A Comprehensive Guide for Navigators and Allied Health Professionals"*. This text is now available free via OPEN ACCESS for the entire lung cancer community during NOVEMBER which is Lung Cancer Awareness Month. According to the book's co-editor and ACS NNRT member, **Meg Fay Mortman**, "This project brings together 39 authors and has been shaped by years work with remarkable patients, caregivers, and multidisciplinary teams. Our goal in writing this guide was to create a practical resource for those navigating the complex world of lung cancer care, whether you are a patient navigator, nurse navigator, social worker, radiology technician, or any other allied health professional supporting patients at risk for or living with this disease."

Meg also called our attention to the fact that she and ACS NNRT Vice-Chair, **Linda Fleisher, PhD, MPH** collaborated on chapter 14 titled "Navigation in Lung Cancer Prevention, Detection, and Care"

As this resource was created to empower navigators and allied health professionals with the knowledge and tools they need to deliver exceptional care, we wanted to share with ACS NNRT membership.

Roundtable New Resources

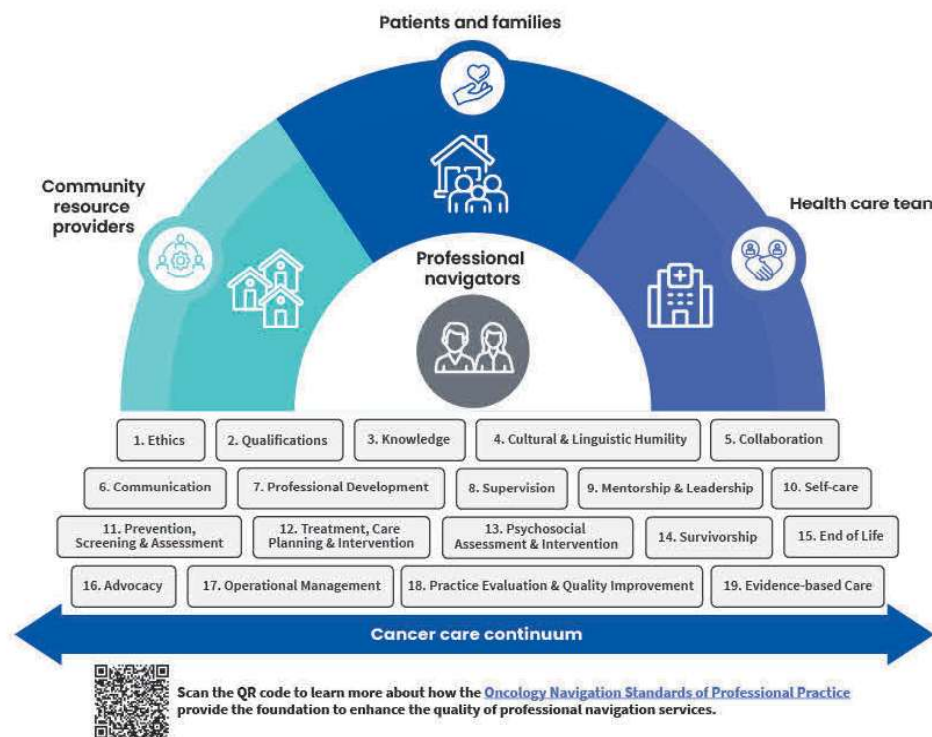

Promising Practices Supporting the Sustainability of Patient Navigation: An Implementation Guide

Excited to share the latest ACS NNRT resource — the “*Promising Practices Supporting the Sustainability of Patient Navigation: An Implementation Guide*.” Developed in partnership with ACS’s LION program and the Patient Navigation Capacity Building Initiative The ACS NNRT Implementation Guide was developed using the Patient Navigation Sustainability Assessment Tool (PNSAT) from the Colorado Cancer Screening Program (CCSP) led by Andrea Dwyer, MPH. It adapts tools from the Center for Public Health Systems Science (CPHSS) at Washington University in St. Louis, this guide equips teams with tools to assess sustainability capacity, pinpoint improvement areas, and build actionable plans. It includes real-world case studies, discussion prompts, and templates to help you institutionalize and sustain patient navigation programs. Access it now and start applying these practices in your organization.

Driving Impact: Professional Standards in Oncology Navigation

ACS NNRT Workforce Development Infographic

The *Driving Impact: Professional Standards in Oncology Navigation* infographic was developed by the American Cancer Society National Navigation Roundtable (ACS NNRT) Workforce Development Task Group as a resource for patient navigation programs. The Oncology Navigation Standards of Professional Practice, created by the Professional Oncology Navigation Task Force (PONT) team, provide clinical oncology nurse navigators, social work navigators, and patient navigators with clear, evidence-based guidance to support consistent, high-quality navigation across all care settings.

A webinar will be forthcoming to showcase this *new* resource!
