

Welcome to our latest *Navigation* newsletter!

In this month's member edition, we're highlighting a few key initiatives where your support can make a meaningful impact. Thank you for your continued partnership and for being an invaluable part of our ACS NNRT mission. Here's what you'll find:

- Your voice matters: 2026 ACS NNRT Membership Survey
- Sign up for the ACS NNRT Priority Teams by 8/21
- PIN Survey: Amplify with your networks!
- ACS National Roundtables 2025 Impact Report

We want to hear from you! Complete your 2026 Member Survey

We are excited to launch the annual [ACS National Navigation Roundtable member survey](#). It is important that we hear from members across ACS NNRT because your perspectives help to shape our work together – trainings, meetings, programs, and products to serve our partners in the prostate cancer community.

You are receiving this survey as a representative of an organizational, corporate, or individual membership. The purpose of this survey is to learn more about you/your organization's engagement with the roundtable and your membership experience and suggestions. The bylaws encourage members to complete the survey each year. Your participation is voluntary, will be kept confidential, and result summaries will be anonymous across the group.

The survey has 25-30 questions and should take approximately 30 minutes to complete. We ask that you **complete the survey by August 19, 2026**.

[Complete the Survey](#)

If you have any questions about this survey, please reach out to ACSRT@cancer.org. Thank you for taking the time to share your insights!

Deadline Approaching: Join an ACS NNRT Priority Team and Help Shape the Future of Patient Navigation

The ACS National Navigation Roundtable (ACS NNRT) is launching an exciting new chapter of member engagement through its **2026-2029 Strategic Roadmap Priority Teams**. These member-driven groups will bring together navigation professionals, advocates, researchers, clinicians, administrators, policy experts, and other stakeholders to advance strategic priorities that strengthen and sustain the future of patient navigation. Building on the success of the **ACS NNRT Task Groups, Priority Teams** will serve as collaborative forums where members can share expertise, explore emerging challenges and opportunities, generate innovative solutions, and help inform the Roundtable's strategic initiatives and annual workplan.

Each team aligns with the ACS NNRT Strategic Roadmap and will focus on advancing critical areas including implementation and sustainability, health equity, policy and reimbursement, technology, and innovation.

Why Get Involved?

Priority Team participation offers members the opportunity to:

- Contribute their expertise to advance the work of ACS NNRT
- Collaborate with leaders and subject matter experts across the navigation community
- Help develop resources, educational programs, projects, and convenings
- Explore emerging trends and issues impacting patient navigation
- Expand professional networks and partnership opportunities
- Support equitable, sustainable, and high-quality navigation across the cancer continuum

2026 Priority Teams

Members are invited to join the team that best aligns with their interests and expertise:

- Sustainability & Implementation
- Elevating Navigation to Drive Equity
- Policy Solutions & Funding Stability
- Ethical Technology Integration

Join Us!

Whether you are a seasoned navigation leader or looking for a new way to contribute, your insights and experience can help shape the future of patient navigation. We encourage all interested members to review the Priority Team descriptions before selecting a group and signing up.

Sign up by Friday, August 21 and be part of advancing the ACS NNRT mission and the future of navigation.

**Step 1: Review the Priority Team
Descriptions**

**Step 2: Sign Up for a Priority
Team by 8/21**

Amplify the PIN Pulse Survey

Your Voice Matters

Whether your organization is actively billing, planning implementation, exploring options, or just learning about reimbursement opportunities, your experience can help guide national efforts to strengthen and sustain patient navigation programs.

WHO SHOULD PARTICIPATE?

- ✓ Currently using navigation billing codes
- ✓ Planning to implement billing codes
- ✓ Not currently pursuing billing codes
- ✓ Interested in learning more about reimbursement

Why participate?

Your feedback will help the National Navigation Roundtable better understand reimbursement adoption, barriers, and opportunities across the country.

SCAN TO TAKE THE BRIEF SURVEY

Every perspective counts. Every response helps advance navigation sustainability.

ACS NNRT Steering Committee and Policy Task Group need your help ensuring broad participation in the PIN Pulse Survey, which is a national effort to better understand how organizations are approaching patient navigation reimbursement and the use of navigation billing codes. The insights gathered will help NNRT identify current practices, barriers, and opportunities, and guide the development of future education, tools, resources, and advocacy initiatives that support sustainable patient navigation programs.

We encourage you to share the survey throughout your professional networks, including:

- Patient navigators and navigation leaders
- Healthcare administrators and program directors
- Educators, researchers, and community health professionals
- Local and national advocacy organizations that offer navigation services
- Organizations that are currently billing, planning implementation, exploring reimbursement opportunities, or simply interested in learning more about navigation reimbursement

To make sharing easy, we've provided a ready-to-use [email template](#) that you can personalize and send directly to colleagues and partners. We also encourage you to share the [survey flyer](#), through newsletters, listservs, social media, team meetings, and other communication channels.

Survey Link: <https://redcap.link/NNRTPIN26>

As a reminder, the survey **closes on OCTOBER 14th**; early responses are encouraged.

Thank you! Every perspective counts. The stronger the response, the better equipped NNRT will be to advance navigation sustainability and support the evolving needs of the navigation community nationwide.

Our Impact In Action

ACS National Roundtables 2025 Impact Report

We're proud to share the ACS National Roundtables 2025 Impact Report, highlighting how we're bringing partners together to foster collaboration, elevate important conversations, and accelerate meaningful action across the cancer continuum. Together with our incredible network of members, partners, and dedicated volunteers, we're advancing innovative solutions that help build healthier communities and improve outcomes for people impacted by cancer. Thank you for being part of this important work.

In 2025 alone, 170 partner organizations participated in the ACS National Navigation Roundtable, helping advance patient navigation programs that eliminate barriers to quality cancer care.

Explore the full ACS National Roundtables Impact Report below. For an even broader look at the impact we're making together, check out the 2025 ACS Patient Support Pillar Impact Report: cancer.org/psimpact.
