**INNOVATIVE PERSISTENCE: ADVANCING BREAST
CANCER NAVIGATION**

Independence East

This armchair discussion between leading experts in navigation will provide the opportunity to discuss a brief history, current strategies and specific approaches to elevating sustainable navigation to advance navigation in breast cancer. The need for continued advocacy, leadership, and education in navigation will be explored. Experts will share lessons learned from the leadership, research and practices of navigation and what successful outputs have driven equity thus far. A Q&A session will also engage the audience and provide action planning opportunities to achieve the next level of breast cancer navigation.
