

Overview

The American Cancer Society National Navigation Roundtable (ACS NNRT) was established in 2017. The ACS NNRT is a national coalition of over 100 member organizations dedicated to achieving health equity and access to high-quality care across the cancer continuum through evidence-based patient navigation.

Building on the visionary work of Dr. Harold Freeman, the ACS NNRT and its members have been building evidence of the positive impact of patient navigation across the cancer continuum through government-funded research and the programmatic efforts of the ACS. The American Cancer Society provides organizational leadership and expert staff support to the ACS NNRT.

Why Join ACS NNRT?

ACS NNRT member organizations enjoy benefits* and services designed to magnify the impact that each organization can have in their efforts to reduce the burden of cancer across the US.

Network, learn, and share at the ACS NNRT National Meeting and other member-only programs and events.

Gain access to the latest news, events, tools, and resources.

Share your organization's achievements and activities with the ACS NNRT membership and beyond.

Leverage your organization's talents and expertise by participating on Task Groups & national initiatives directly addressing patient navigation priorities.

ACS National Roundtables

Some barriers challenging our efforts to improve the lives of people with cancer and their families are too complex for any one organization to address on its own. To overcome these barriers, the ACS unites organizations in collaborative partnerships through its mission-critical national roundtables. The ACS national roundtables are a recommended and proven model for creating sustained partnerships across diverse sectors to tackle both long-standing and emerging issues in cancer.

In addition to patient navigation, ACS also provides organizational leadership and staff support to national roundtables focused on breast cancer, cervical cancer, colorectal cancer, lung cancer, prostate cancer, and HPV vaccination.

Membership Type

The ACS NNRT consists of organizational members, corporate members, affiliate members, and select individuals (by invitation) which reflect a broad involvement in cancer support issues across the cancer continuum. There are no dues associated with membership. Separate membership applications and notice of acceptance are required for each roundtable.

Organizational Member

Organizational members join in support of ACS NNRT's mission, commit to advancing the shared agenda and goals of ACS NNRT, and actively participate in roundtable activities. They demonstrate outstanding expertise on ACS NNRT subject matter with broad potential for education and promotional opportunities.

Affiliate Member

Affiliate members are organizations that support the ACS NNRT's mission and goals, but do not meet the criteria of any other membership category.

Corporate Member

Corporate members are organizations that make or distribute products that aid in the screening, prevention, treatment, or navigation of cancer. This category also applies to any organization that has significant commercial interest in providing services where such interests have potential to cause actual or perceived improper influence or undue bias.

Individual Member

Individual members join by invitation only. They demonstrate outstanding expertise in ACS NNRT subject matter and their membership is approved by the ACS NNRT steering committee.

If your organization is interested in applying for membership to the ACS NNRT, please complete a membership application.
