

2022-2023

Call to Action Series

Patient Navigation is a proven evidenced based intervention contributing to the reduction of healthcare disparities and the improvement of health equity across the cancer care continuum. It contributes to reducing patient confusion about complex, fragmented healthcare and to improving patient satisfaction and experience. Yet sustainability of oncology patient navigation programs is often challenging.

This Call to Action Series will focus on three supplemental articles published in **Cancer**: “A Decade Later: The State of Patient Navigation in Cancer,” the Journal Supplement and Oncology Navigation Standards of Professional Practice (PONT).

Please join us for this exciting Call to Action Series.

Barriers and Opportunities to Measuring Oncology Patient Navigation Impact: A National Survey

October 25, 2022
4:00-5:00 PM ET

This session will discuss the obstacles preventing navigation programs from using data to justify their existence and the opportunity to align data collection with oncology accreditation, funding, and reimbursement as a viable path forward.

PRE-READ ARTICLE

Oncology Navigation Standards of Professional Practice - PONT Standards

November 9, 2022
3:00 – 4:00 PM ET

The Professional Oncology Navigation Task Force created the Oncology Navigation Standards of Practice to provide professional oncology clinical navigators and patient navigators with clear information regarding the standards of professional practice. It will also highlight how navigation programs can apply the standards to their programs.
