

Reaching Communities through Patient Navigation: Evidence for Action

ACS NNRT is pleased to facilitate this webinar from national thought leaders from the Community Preventive Services Task Force (CPSTF) and the Professional Oncology Navigation Task Force.

During this webinar, participants will learn about the systematic review evidence used as the basis for this CPSTF recommendation. You will also learn about [The Community Guide](#), a resource that houses CPSTF findings, systematic review evidence, promotional materials, and implementation tools. As you listen to the presentation, you may be inspired to implement patient navigation through the lens of the Oncology Navigation Standards of Professional Practice ([PONT Standards](#)) as well as share this information with others. Share this free resource to decrease cancer burden with the Comprehensive Cancer Control coalitions by incorporating patient navigation and screening evidence-based strategies, programs, and policies to improve health and prevent disease in communities.

The American Cancer Society National Navigation Roundtable (ACS NNRT) was established in 2017. The ACS NNRT is a national coalition of 80 member organizations to advance navigation efforts that eliminate barriers to quality care, reduce disparities, and foster ongoing health equity across the cancer continuum. The American Cancer Society provides organizational leadership and expert staff support to the ACS NNRT.
